OBJECTIVE

To leverage my 5 years of experience as a Web Developer, learning from industry experts to create efficient real-life digital solutions while continuing to grow in the tech field.

SKILLS & ABILITIES

Skilled in HTML, CSS, JavaScript, and WordPress, with a passion for learning more about SEO and E-Marketing. Strong in content creation, analytical and logical thinking, high-level math, and fast learning. Effective in project collaboration with advertising, design, and backend teams, with fair knowledge in creating prototypes.

EXPERIENCE

2021 - Present

Web Developer (Freelance)

Developed WordPress web solutions for startups and medium-sized businesses. Managed backups, debugging, and updates. Provided client support, social media strategies, and growth tracking.

2019 - 2021

Front-End Developer (Full-Time)

Kayangroup

Converted designs into live web apps, developed custom solutions with a focus on responsive design and SEO, and implemented QR codes. Managed the Kayangroup website, including backups and content creation. Collaborated with advertising, design, and backend teams to deliver integrated solutions.

EDUCATION
